BIRCHMEIER®

SMART UND SWISS SEIT 1876

Foam-Matic 5 P / E

Mobile foaming with excellent foam quality

max. 4 bar

G ¼"

VITON

EPDM

1

pH 1–7

pH 7–14

Solvent

- Transparent 7.5 litres plastic tank, ideal filling capacity for foaming 3 litres
- Chemical resistant FKM (Viton) resp. EPDM gaskets
- High performance hand pump with two hand grip and up to 4 bar operating pressure
- Robust safety and relief valve
- Compressed air connection valve
- Large filling opening with integrated funnel
- Red for acids FKM (Viton) – blue for alkalis (EPDM)

Made in Switzerland

Mobile foaming

Thanks to the large air compression volume and hand pump, foaming can be performed anywhere and quickly without connection to a compressed air line. High air content results in good and dry foam. Therefore low chemical consumption (rough estimate: 1 litre foam liquid covers up to 40 m² cleaning surface). Ideal for cleaning vertical surfaces and equipment.

Additional advantages of foam cleaning with Foam-Matic 5 P / E

- Optimal surface coverage with excellent optical control
- Reduction of the aerosol mist in the air
- Optimum foam quality and flexible use without permanent compressed air line connection

Convincing performance features!

Large filling opening with integrated funnel

Safety and relief valve

Robust transparent plastic tank with 5 l filling capacity or 7.5 l container filling contents

Fan jet foam nozzle with rotation function

Heavy duty plastic trigger

FKM (Viton) gaskets (red)

Tank base

Kink-resistant hose

Combined pump- and double handle with lance holder

Compressed air connection valve to build-up pressure

4 bar operating pressure and 2.5 litres air compression volume

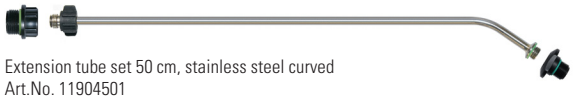
Liter scale

Carrying belt

Foam-Matic 5 P
(Red = Acidic foaming agents)
Art.Nr. 11900401

Foam-Matic 5 E
(Blue = Alkaline foaming agents)
Art.No. 11907601

Accessory



Extension tube set 50 cm, stainless steel curved
Art.No. 11904501
